

ANDERSON LANDSCAPING

Landscape Designer

Wenatchee, WA

Anderson Landscaping, a premier design-build landscape construction company, is seeking a landscape designer who is passionate about creating unique, outdoor living spaces to join our team.

Are you looking for a challenging opportunity to work with a variety of exciting residential and commercial projects? Are you looking to work with a dynamic, creative team with an innovative approach to outdoor spatial design and construction? Can you coordinate multiple projects and deadlines? We are searching for you.

We are a team of dedicated, experienced, and highly skilled project managers, designers, technicians, and craftsmen who share a common desire--to provide our clients with the utmost attention in creating livable, sustainable, and exquisite outdoor environments. We strive for excellence on every project! With our headquarters in Wenatchee, WA we enjoy a beautiful region, nestled in the eastern foothills of the majestic Cascade Mountains. Our community, clients, and co-workers are at the heart of our success. Visit www.landscapebyanderson.com to learn more about us.

The position location is Wenatchee, Washington, and is not available for remote work.

Responsibilities:

- Provide various landscape graphics and project tasks for a wide variety of high-end residential and commercial projects, to be constructed by Anderson Landscaping
- Develop landscape plans from preliminary design through conceptual and final design, producing quality work that exceeds client expectations
- Provide the bridge between creativity and the technical aspects of design
- Production drawings utilizing CAD files from civil and architecture teams, client presentations utilizing Adobe InDesign, hand graphics, and other software graphics
- Site analysis, base mapping, design development, grading & drainage, layout and material plans, planting plans, and layout of plant materials on site
- Working with permitting requirements for landscaping plans and stormwater
- Working with construction industry materials (such as hardscape, plant material selections, irrigation, lighting)

Qualifications:

- Proficiency in AutoCAD and MS Office
- Familiarity with ornamental plant materials, suitable to Eastern Washington region
- Basic knowledge of landscape design and landscape construction practices
- Ability to work both autonomously and within a team dynamic
- Ability to meet deadlines, accept direction, and learn new skills
- Exceptional time management skills with your own self-motivation
- Great communication (verbal and written) and time management skills
- Extremely well-organized, with attention to detail to assure the quality of work is performed at the highest level
- Education: Vocational Degree, Associate Degree, or Bachelor's Degree, relevant to the position
